Mr. Vanthume,

To paraphrase Mark Twain, the reports of Firewheel's dead are premature. Several members of the Council are concerned about the "red ink" that the Golf Park is currently experiencing. However, I believe that Council wants to work to improve the situation, not get rid of Firewheel. These concerns are not new, but obviously, when they are voiced on CGTV Channel 16, the concerns impact a wider audience.

Bob Day  
Mayor

Mayor Bob Day  
City Of Garland  
Garland, TX.

Dear Mr. Mayor:

My name is Chris Anthaume and I am President of the Fairways at Firewheel HOA. I have heard that there is some danger that the City Council is considering actions which might close or reduce the size of the Firewheel Golf Complex. Obviously, all of us in this area, probably over 1000 homeowners in the total Firewheel Area and the fastest growing area in Garland would be very much opposed to any action which would greatly affect the value of our real estate. Could you let me know if we need to be concerned and when the Council is going to act on this matter and what action you contemplate they will take?

Chris Anthaume  
President  
Fairways at Firewheel HOA
